## SKILLS

- **Languages**: C/C++, Java, Python, JavaScript, PHP
- **Databases**: MYSQL, PostgreSQL
- **Tools and Platforms**: Git, GitHub, VS Code, Jupyter Notebook, Bash, Linux**,** Tableau, Power BI, Excel
- **Libraries**: Pandas, Numpy, Seaborn, Matplotlib, Plotly, Sckit-Learn, Tensorflow, SHAP, Streamlit.
- **Soft Skills**: Leadership, Problem-Solving Skills, Adaptability

## PROJECTS

1. **Stock Market Analysis** In progress
   - An interactive Streamlit dashboard is currently being developed to integrate real-time stock market data through API connectivity, enabling continuous tracking of price movements, volatility, and sector performance.
   - Python analytics and visualization libraries are being applied to analyse market behaviour, uncover trends, and evaluate asset efficiency. The system is designed to generate dynamic charts and metrics that provide clear, actionable investment insights.

   **Tech Stack:** Python and its Libraries, ML Algorithms
2. **Real Estates Analysis** Oct'25
   - Developed an interactive Power BI dashboard that analyzes two decades of real estate transactions, uncovering pricing trends, sales growth, and valuation efficiency.
   - The dashboard visualizes market behavior across various property categories and regions, enabling clear comparison and performance assessment. Dynamic charts highlight long-term patterns and emerging shifts in the real estate landscape. Overall, the project delivers a comprehensive view of real estate performance over time.

   **Tech Stack:** Power BI
3. **Page Replacement Simulator** Mar'25
   - Developed a clean and efficient GUI that simulates page replacement algorithms in operating systems. The tool provides an interactive way to understand how different algorithms manage memory and replace pages.
   - It helps students grasp one of the core concepts in operating system design through visual and step-by-step simulation. Overall, the application serves as an effective learning aid for mastering page replacement mechanisms.

   **Tech Stack:** Python

## CERTIFICATES

- Cloud Computing by IIT Kharagpur NPTEL May'25
- Python for Data Science by Infosys SpringBoard Apr'25
- Java by Infosys Springboard Dec'24

## ACHIEVEMENTS

- **Secured Global Rank 1,616th:** June'25
  Among 25k+ participants in Leetcode Weekly Contest 451
- **Secured 5+ Stars on HackerRank**
  Received 5+ stars for languages like Python, C/C++, Java

## EDUCATION

- **Lovely Professional University** **Phagwara, Punjab**
  Bachelors of Technology – Computer Science and Technology CGPA:7.91 Aug'23 – Jul'27
- **Innocent Heart School, GMT** **Jalandhar, Punjab**
  Intermediate Percentage: 89.8 Apr'22 – Mar'23
- **Cambridge International School for Girls, UE. I** **Jalandhar, Punjab**
  Matriculation Percentage:95 Apr'20 – Mar'21
