Summary

Computer Science undergraduate focused on AI/ML, Data Science, and Business Analytics, with hands-on experience building predictive models and data-driven applications using real-world datasets. Experienced in machine learning and deep learning, financial forecasting, sentiment analysis, data visualization, and business intelligence, with proficiency in Python, SQL, and Power BI. Skilled at transforming complex data into meaningful insights and practical solutions for real-world business challenges.

Projects

Stock Market Analysis | *Python, Streamlit, Machine Learning* | *GitHub Link* Jan 2026 – Mar 2026

- Developed an interactive stock market analytics dashboard using **Streamlit** that analyzes **5 years of historical and near real time market data** for **22+ stocks**, featuring technical indicators and dynamic financial visualizations.
- Implemented and evaluated **8 machine learning and deep learning models** with automated backtesting using **5 performance metrics**.
- Integrated **30+ live financial news articles** with **VADER-based sentiment analysis**, ensemble forecasting, and AI generated **BUY/SELL signals**, along with forecast generation for up to **180 business days**.

Real Estate Analysis | *Power BI, Power Query* | *GitHub Link* Oct 2025 – Nov 2025

- Built an interactive **Power BI** dashboard to analyze **100k+ real estate transaction records** from the **Data.gov** dataset across towns, years, and property types.
- Designed **10+ interactive dashboards and KPIs** to visualize sales trends, transaction volume, average sale value, and assessed value vs. sale value using dynamic filters and slicers.
- Cleaned and transformed the dataset using **Power Query** to generate insights on **3 property categories** and identify top-performing towns and market trends.

Training

Centre for Professional Enhancement LPU | *Certificate Link* Jun 2025 - Jul 2025

From Data to Decisions: A Hands-On Approach to Data Science

- Gained **practical exposure in tools and technologies** used in **data science** such as **Python and its libraries**, **data visualization techniques**, and **basic machine learning concepts**. Developed the ability to **convert raw data into structured formats** and **visualize trends** using **charts and graphs**.

Certificates

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate May 2026

Oracle platform — Certificate Link

Oracle Data Platform 2025 Certified Foundations Associate Apr 2026

Oracle platform — Certificate Link

Achievements

- Demonstrated competitive programming excellence with **1,400+ LeetCode problems solved**, **30+ badges**, **a 500+ day streak**, and **Global Rank 8394**. Jun 2026
- Achieved **5 stars ratings** in Problem Solving, SQL, Python, Java, and C++, reflecting **strong programming expertise** on **HackerRank**. Apr 2025

Technical Skills

Languages: C/C++, Java, Python, SQL

Data Science & ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Keras, SHAP

Data Visualization: Power BI, Matplotlib, Seaborn, Plotly, Streamlit

Databases: MySQL, PostgreSQL, MongoDB

Big Data & Tools: Apache Spark, PySpark, Hadoop, Hive, Kafka, Git, GitHub, Postman, Jupyter, n8n

Education

Lovely Professional University 2023 – Present
Computer Science and Engineering — CGPA: 7.96 *Phagwara, Punjab*

Innocent Hearts School, Gmt Punjab 2022 – 2023
12th with Science — Percentage: 90 *Jalandhar, Punjab*

Cambridge International School for Girls, Punjab 2020 – 2021
10th — Percentage: 95 *Jalandhar, Punjab*
